Hand-drawn map of a village showing land parcels with dimensions and area calculations. The map includes a central road and several rectangular plots. Dimensions are given in feet (36, 40, 38, 20, 2, 6). Areas are calculated in square feet (e.g., 36x40=1440, 38x40=1520) and converted to bighas (e.g., 1440/1080=1.33). A red line runs vertically through the center. A red arrow points to a calculation on the right side.

श्रीमान जी -
तसदीक की जाती है कि नकल मुताबिक असर है। बदलत
फीस हसब ज़ाबता नकद वसूल पाई।
