

SOLID WASTE MANAGEMENT PLAN
POCKET-1 (2.364 ACRES)
SECTOR 15, GURUGRAM

Narrative as per EC report for solid waste management plan

Solid waste generation from the facility will be approximately 0.34 TPD including 0.21 TPD bio-degradable wastes. Solid waste generated from different apartments and other areas will be collected daily on door-to-door basis by the dedicated and trained housekeeping staff. Twin bin systems will also be provided for collection of waste segregated at sources. Recyclable wastes will be sold to authorized vendors and non- recyclable wastes will be disposed through authorized agency to municipal waste disposal site.

Biodegradable (including horticulture) shall be treated in OWC installed at site.
