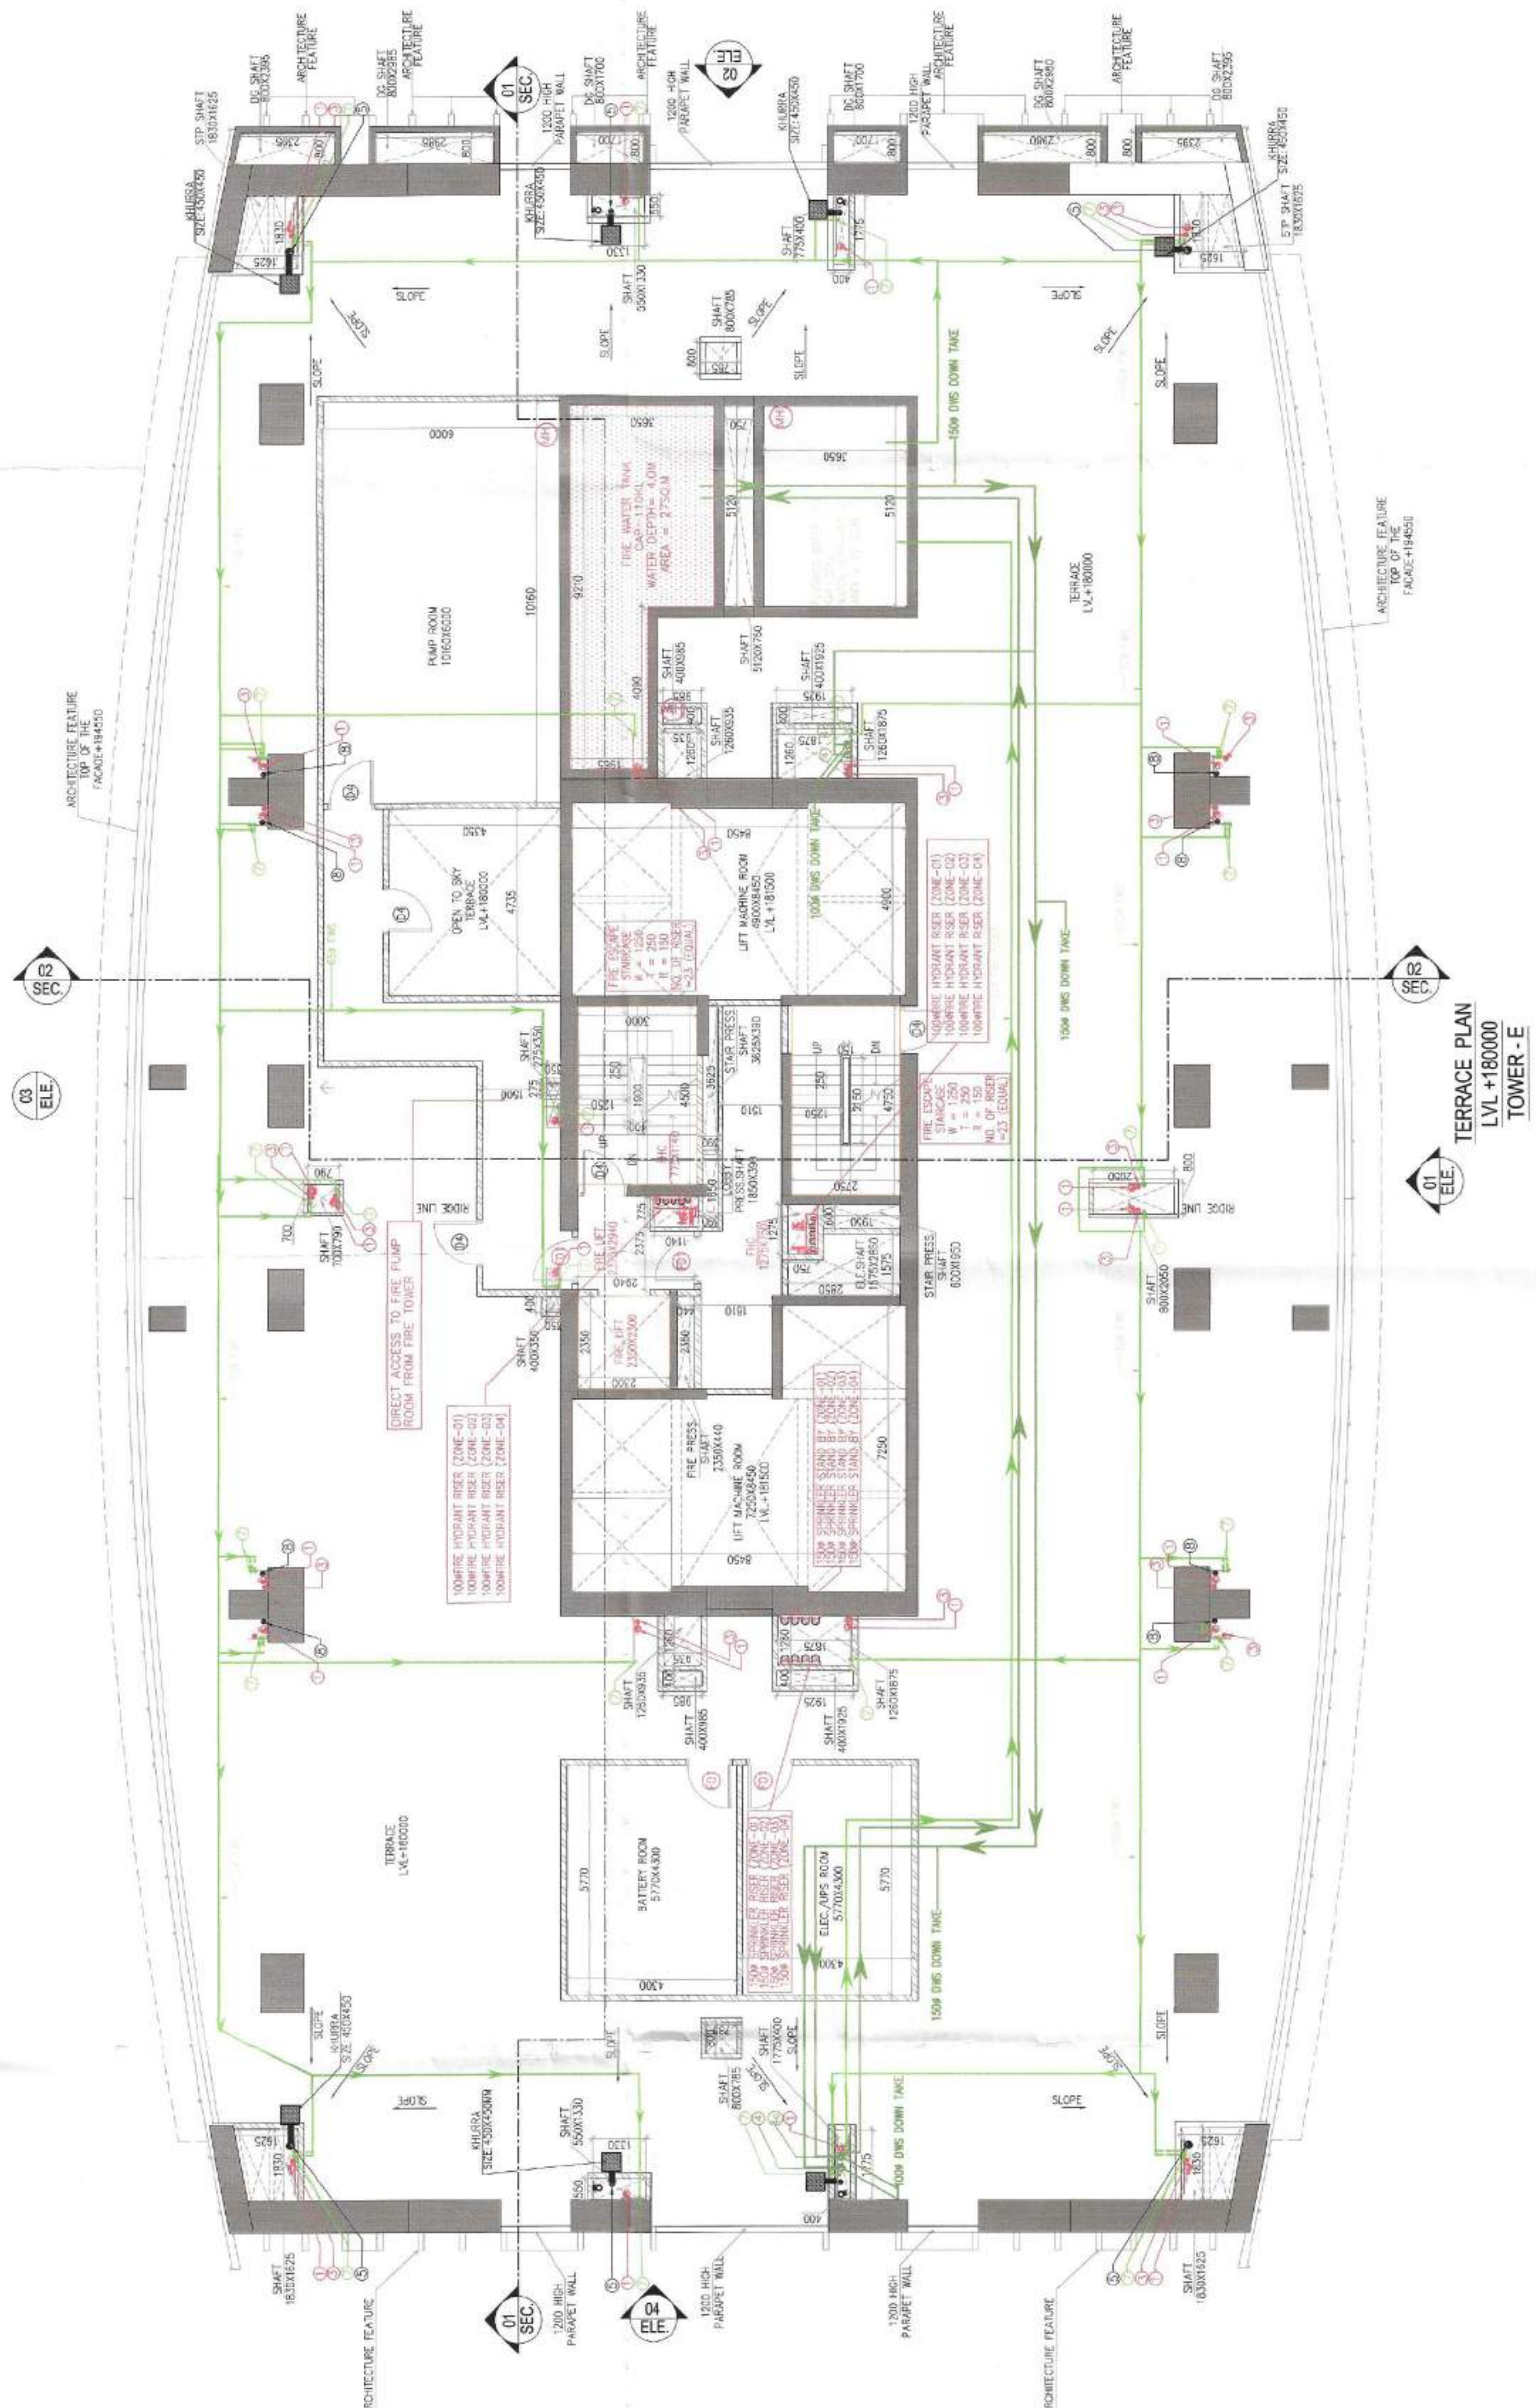

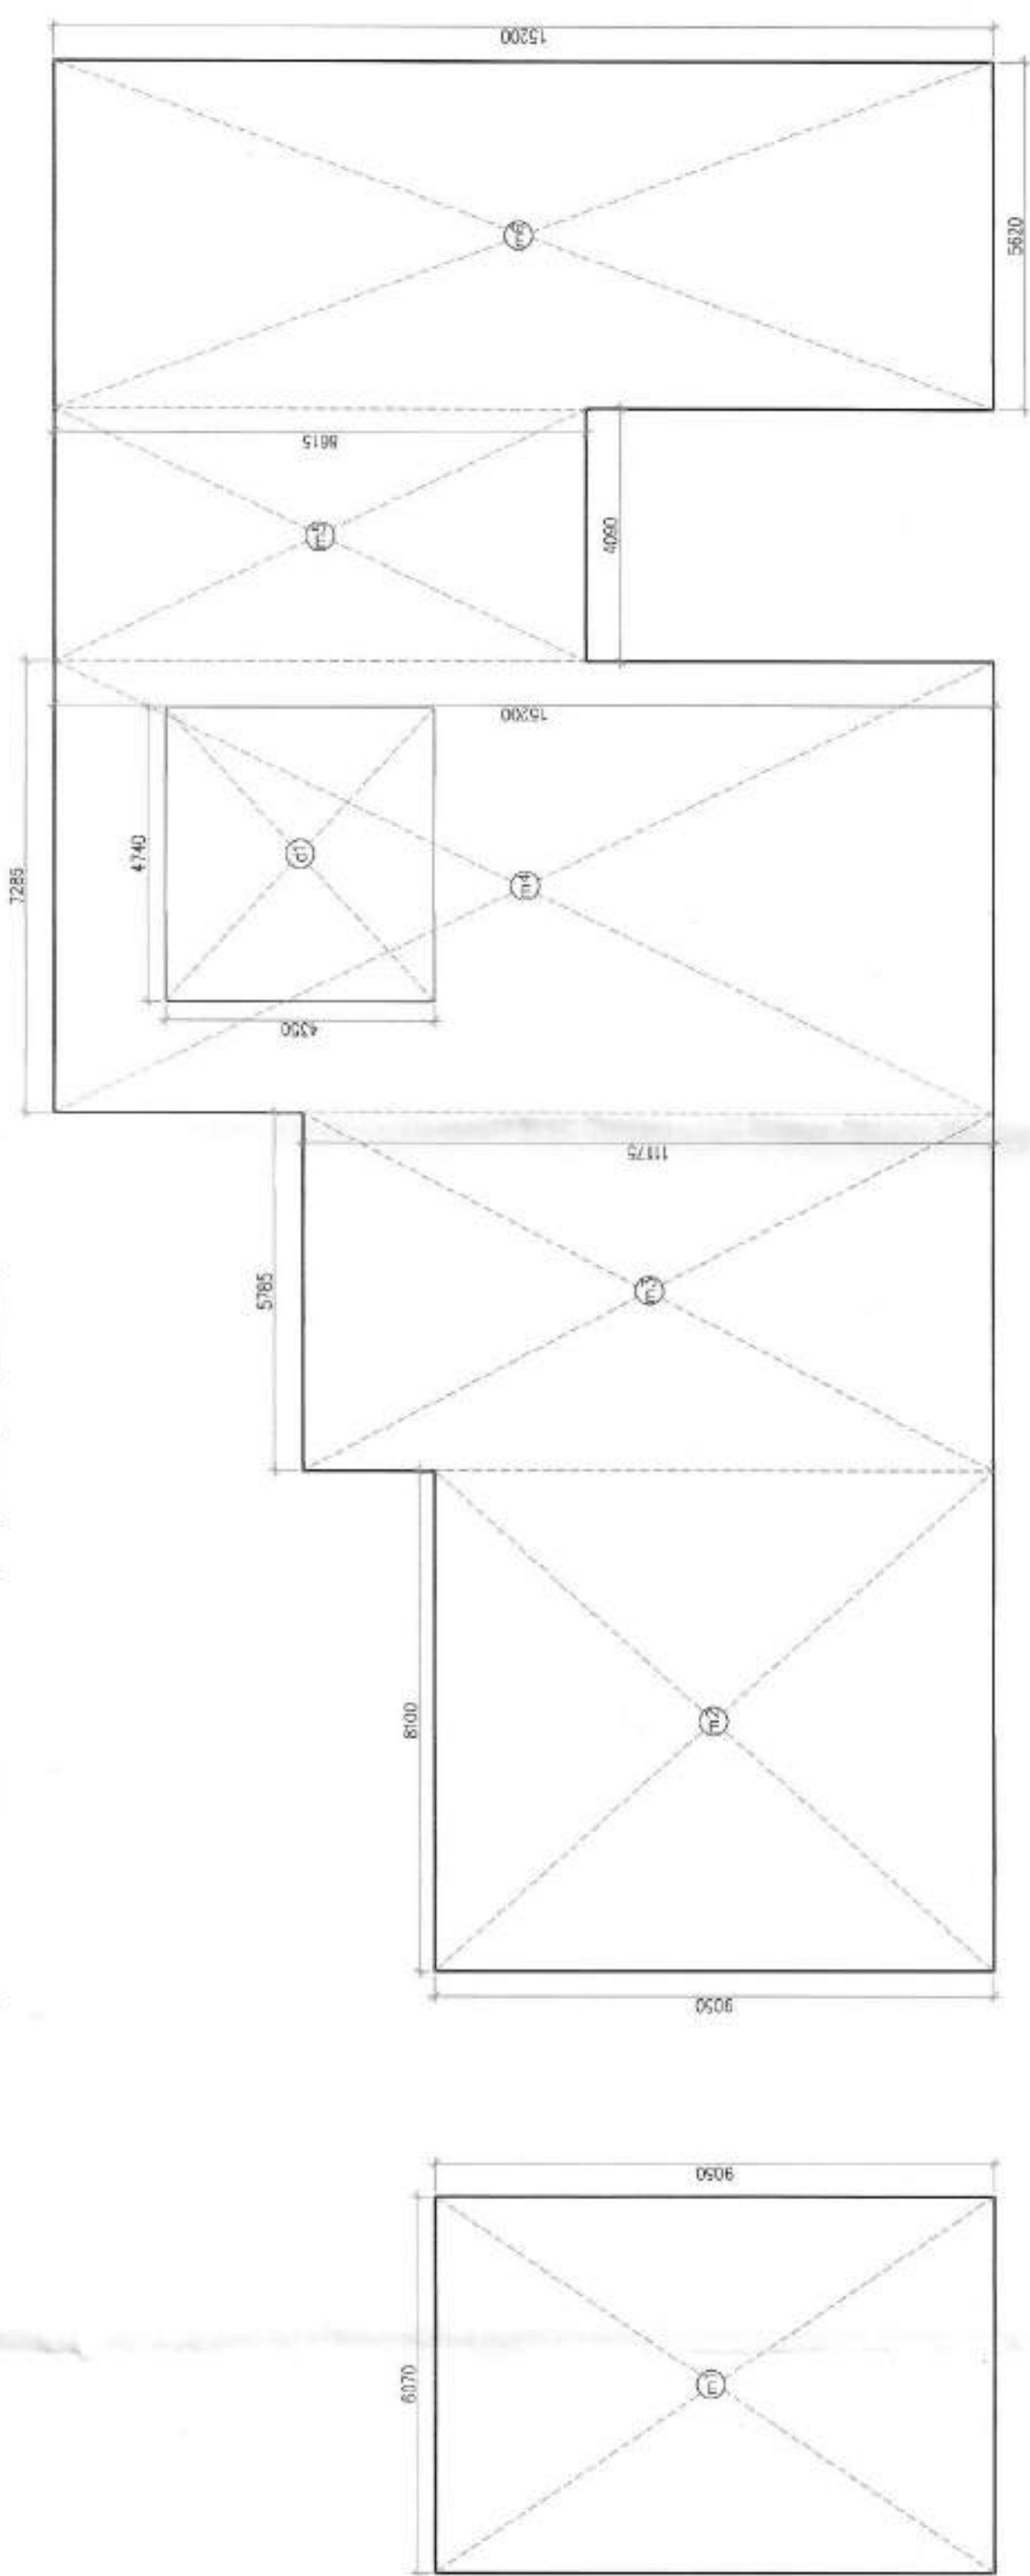

Figure 1 is a cross-sectional diagram of a water treatment system. It shows a vertical flow path. At the top, 'RAW WATER' is indicated on the left, and 'TANK SYSTEM' is on the right. The water then passes through a series of layers. The first layer is labeled '1500' on the left. Below this is a layer labeled '1000' on the left, which contains a '1000' depth filter. The next layer is labeled '1000' on the left, containing another '1000' depth filter. The bottom layer is labeled '1000' on the left, containing a '1000' depth filter. The total height of the system is '1500'. The diagram is labeled 'TREATMENT WATER' on the right side.
