

Dated-22.04.2026

To,

The Executive Engineer
Haryana Vidyut Prasaran Nigam Limited (HVPNL),
Gurugram.

Subject: Request for Shifting of 66 KV Underground Cable Outside Plot Boundary.

Ref:- Licence No 69 of 2025 dated 12.05.2025 being developed by Oberoi Realty Ltd.

Respected Sir,

This letter is to request the relocation of the existing 66 KV transmission line currently passing through/along the boundary of our Mixed Land Use licence colony village Ghata, Sector-58 being developed by Oberoi Realty Limited. The presence of this line within the plot boundary is causing significant constraints in the safe and effective utilization of the land.

In the interest of safety, compliance, and optimal land use, I kindly request HVPNL to consider shifting the said 66 KV underground line to outside of our plot boundary.

The presence of a high-voltage line within the plot boundary poses the following concerns:

- **Safety Risks:** High-voltage lines within close proximity to construction activities and human movement increase the risk of accidents, electrical hazards, and potential damage to life and property.
- **Regulatory Compliance:** As per standard safety norms and guidelines, adequate clearance from high-voltage lines is essential to ensure compliance with building regulations and electrical safety standards.

We are willing to cooperate fully with HVPNL in terms of providing necessary access, documentation, and fulfilling any formalities required for the relocation process.

I sincerely request your office to kindly initiate the necessary survey and provide guidance on the procedure, cost implications, and timeline for shifting the line.

Your support in this matter will be highly appreciated.

Thanking You,

Yours faithfully,

For Oberoi Realty Limited.

Authorised Signatory

Encl:- 1. Licence Copy and Change of Developer.
2. Zoning plan
