ii) Alternatively, the integrated plan prepared by promoters submitted to the Authority should clearly show all the details of common facilities etc as shown in the individual layout plans. There should be no change in the approved layout plan in respect of individual colony. In other words, all infrastructure facilities approved by the Town and Country Planning Department for creating in individual colonies should be clearly and properly shown in the integrated layout plan. Legend of such facilities either should be properly shown in the integrated plan.

If this second option is adopted, promoters shall also self certifying the integrated layout plan.

Rest of the application is in order. Therefore, this project will be registered once aforesaid information is submitted by the promoters.
